What can we do to fight climate change?

9 odgovorov

If you have to go somewhere and it's not too far from you, you can walk to there.

Use less water, use less plastic...

If they shut it down when you sleep or they can do that if they say they are gonna do this shouting

Maybe we should be more careful. We must protect our nature and use our resources correctly.

We should use public transportation instead of personal vehicles, we should not use things like perfume and deodorant, we should install filters in factory chimneys.

We can keep our environment clean. We can recycle garbage. We can reduce fossil fuel consumption.

to recycle

we can't stop the climate change but we can slow it down but we can reduce it by saving the nature
